Dear SizeGenetics,

I'm a 60 year old that has always felt I was average till I saw your size survey chart. Your device has opened a whole new world for me.

Not only have I become larger and longer, (the proof is in the pictures) my stamina has gone way up. My confidence in bed and enjoyment is unbelievable.

I started in mid-September, about a total 4 to 6 hours a day. Wearing the device two or so hours in the morning and again in the evening. Had three 5 day breaks due to travel, but was surprised that I didn't lose any gains. The device was easy to use and after awhile I would forget I had it on. Here it is mid-January and I happy as hell with my growth.

Thanks for changing my life

Homer
