

**Mikey, Norfolk (UK)**

I wasn't so much sceptical with the device as I was scared that it would rip my penis off lol.

But it has worked wonder. Initially the device wasn't the easiest thing to wear but after a month my body got used to wearing it. I actually completely customized my device with things I found around the house like a piece of sock to cushion the penis.

I didn't have any wild dreams of having a 9 inch dong. That's what I think the problem is with men wanting a bigger penis, they set their goals too high!

It's like working out, you have to put in the time and patience and then you'll get results. I have now been using the device for a little over 4 months now and I think it's a great buy. The customer service is also really helpful.
