Dear Sir / Madam,

I am writing to share with you my experiences of using the SizeGenetics system and, ultimately, to thank you for the fantastic benefits that I have gained from using it.

It was back in February 2009 that, after weeks of browsing your website, I finally made the decision to go ahead and purchase the device. I was naturally quite sceptical at first but figured I couldn't really lose: If it didn't work I could claim my money back and, even better, if it did work and I wrote a testimonial (such as the one you're reading right now) I could also receive a full refund. It seemed too good to be true.

After a short period of getting used to the device, I quickly found it easy to use and after just one month of wearing it (an average of 2-3 hours per day), I started to experience great results. Firstly I noticed that my erections were harder than they had ever been and that I had better control during intercourse. I also gained around 0.5 inches in length and 0.3 inches in girth that month.

Now, just four months on I simply can't believe the results! My penis, which, back in Feb, was 5.0 inches flaccid, 6.9 inches erect and 5.4 inches in girth is now 6.8 inches flaccid, a whopping 8.7 inches in length and 6.0 inches in girth! (See photos as evidence). My wife can't believe it either and my proudest moment happened recently when she returned home with a few packs of XL condoms, which fit great! - (regular sized condoms had become very uncomfortable to wear... a nice problem to have!). Lovemaking is also better than ever! I now have really good control and orgasms are much more intense (for both of us!)

So, all that leaves for me to say is a huge thank you. Using this device has really boosted my self-confidence, both in and out the bedroom, and I would whole- heartedly endorse this product to anyone wanting to gain the kinds of benefits that I myself have experienced. Give it a try – you've got nothing to lose!

Yours faithfully,

Richard
